

SEO Assessment Project

Subject: Search Engine Optimization

Name: Nirmal Mundhava

Section A – Basics

1. What is SEO?

SEO (Search Engine Optimization) is the process of improving a website to rank higher on search engines like Google and increase organic traffic.

On-Page SEO:

Optimization done within the website (title tags, content, images, URLs)

Off-Page SEO:

Optimization done outside the website (backlinks, social media, promotions)

2. What are Keywords?

Keywords are the words or phrases users type into search engines.

Short-tail Keywords:

- Example: bakery
- High search volume and competition

Long-tail Keywords:

- Example: best bakery in Surat for cakes
- Lower competition and more targeted

3. Crawling, Indexing, and Ranking

- Crawling: Search engines scan websites using bots
- Indexing: Pages are stored in the search engine database
- Ranking: Pages are displayed in search results based on relevance

4. What is SERP?

SERP (Search Engine Results Page) is the page displayed after a search query.

SERP Features:

- Featured Snippet
- People Also Ask
- Local Pack

5. What is Domain Authority?

Domain Authority (DA) is a score (0–100) that predicts how well a website can rank on search engines.

Section B – Practical Tasks

Task 1: Keyword Research (Bakery – Surat)

Primary Keywords

- bakery in Surat
 - cake shop Surat
 - birthday cake
